SUMMARY

Front-End Engineer with 4+ years of experience building and shipping 4 production-grade platforms (CRM, ERP, SaaS, E-commerce). Proven track record as a sole architect of end-to-end front-end systems, with a strong focus on code quality and maintainable design. Highly proficient in React, Next.js, and TypeScript, with extensive back-end integration experience using Node.js, Express, and REST. Experienced in implementing data-driven and AI-powered features into production environments. Focused on delivering scalable, maintainable architectures and driving technical excellence within collaborative engineering teams.

WORK EXPERIENCE

Front-End Developer (Full-time)

February 2026 – Present

Yekta Group | Mashhad, Iran

- Work in an Agile/Scrum workflow with back-end, design, and product stakeholders, consistently delivering releases on schedule.
- Delivered the Yekta Group holding-companies presentation platform as sole full-stack developer, building both the front-end and an internal REST API from the ground up (Next.js, Hero UI, Redux, React Query, Express.js).
- Architected and solely developed the front-end of a comprehensive internal ERP platform in React.js and shadcn/ui, covering document archiving, an internal chat system, attendance tracking, and a task manager – fully replacing the company's manual organizational workflows.
- Built and integrated an AI-powered sentiment-analysis pipeline (Hugging Face) that turns raw customer feedback into actionable marketing insights for the sales team.

Front-End Developer (Full-time)

April 2025 – January 2026

Helium Park | Mashhad, Iran

- Sole architect and implementor of the customer-facing platform and user portal (heliumpark.ir) front-end from scratch, including authentication flow, profile creation, and a personalized user dashboard.
- Contributed to back-end API endpoints using Express.js to support front-end data requirements.
- Built a full CRM system in Next.js 15 and TypeScript, reducing support response time by 30%.
- Designed an RFM analytics model to enable targeted promotions, boosting customer retention by 25%.
- Achieved Lighthouse performance scores of 90+ through Next.js App Router SSR and optimized data-fetching with React Query.

Front-End Developer (Full-time)

June 2024 – March 2025

Negah Rahgosha Hooshmand | Mashhad, Iran

- Built a real-time notification system with WebSockets/Socket.io, cutting update latency by 40%.
- Developed a multi-faceted search and autocomplete system that measurably reduced search abandonment.
- Optimized SSR/SSG in Next.js, improving Core Web Vitals and SEO rankings.
- Applied AI-driven behavioral analysis using Python and Pandas to boost user engagement by 20%.

Front-End Developer (Full-time)

December 2023 – May 2024

Namafareen | Mashhad, Iran

- Built core e-commerce features in React.js, including product pagination, cart, and secure checkout.
- Developed the blog UI following SEO best practices, improving organic visibility.

Front-End Developer (Full-time)

June 2023 – November 2023

Khayyam University | Mashhad, Iran

- Designed and built a full-stack web application (Next.js, Express.js, MongoDB) for managing university events and student registrations, from concept to deployment.
- Built an online cafeteria reservation system and student portal using React.js and Redux.
- Delivered a full-featured admin panel for association members alongside an optimized, pixel-accurate, responsive MUI student-facing UI with cross-browser support.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js 19, Next.js 15 (App Router), SSR, SSG, ISR, Tailwind CSS v4, Bootstrap, MUI, shadcn/ui, NextUI

State & Data: Redux Toolkit (RTK), React Query, Zustand, React Hook Form, Formik, Axios

Network & APIs: REST API, GraphQL, WebSockets, Socket.io

Backend & DB: Node.js, Express.js, Fastify.js, PostgreSQL, MS SQL Server, MongoDB, JWT Authentication

AI & Machine Learning: Python, Pandas, NumPy, Hugging Face Transformers, Sentiment Analysis, Prompt Engineering, LLM API Integration (OpenAI/Anthropic APIs), Behavioral Data Analysis, Machine Learning Concepts

DevOps, Tools & Performance: Docker, Git, GitHub, GitLab, CI/CD, Image Optimization, Lazy Loading, Accessibility (a11y), Core Web Vitals

Testing: Jest, Vitest, Storybook, React Testing Library, Cypress, Code Review

Soft Skills: Team Leadership, Mentoring, Problem-Solving, Agile/Scrum, Cross-functional Collaboration, Presentation

EDUCATION

M.Sc. in Artificial Intelligence <i>Khayyam University, Mashhad, Iran – Admitted via Exceptional Talent Quota</i>	Sep 2025 – Present
B.Sc. in Computer Engineering <i>Khayyam University, Mashhad, Iran – GPA: 17.73 / 20</i>	2021 – 2025
